To Our Wonderful Patients,

I hope this note finds you well on your health journey. It is an absolute privilege to partner with you in optimizing your health and helping you feel your vibrant best. Over the past few years, our practice has grown beautifully and we thank you all for being on this journey with us. To ensure that we can continue to provide you with the deeply personalized, unhurried attention you deserve—and to thoroughly review your complex lab panels, manage your specialized peptide protocols and hormones, and design cutting-edge therapies without constraint—we are evolving our practice model.

Starting on November 1st, 2026 we are introducing a new Wellness Membership alongside updated standard rates. Our goal is to give you choices that match your health goals while adding massive value to the treatments you already love.

PAY AS YOU GO

If you prefer total freedom without a monthly subscription, you are welcome to continue booking your appointments as you always have. To support our clinic's dedicated nursing and administrative team, our standalone rates will be updated to:

- Standard Follow-Up Consultations: \$225 for up to an hour, longer more complex visits will incur extra fees.
- Note: Standard aesthetic and product purchases will remain at our baseline retail rates.
- Due to the amount of staff time it takes; refills in between visits and complex medical questions will not be permitted without a fee. Refills, nurse visits, and blood draws all start at \$35 and up based on complexity.

WHAT'S NEXT?

At your next scheduled visit we will go over the plan that will fit you best. The new rates and memberships will go into effect November 1st and all visit rates will remain the same until that date. If you have questions or concerns please email us by clicking the link below.

Thank you for your continued trust and loyalty, and partnership. We are honored to be a part of your wellness team and look forward to seeing you at your next appointment!
