

NAD+

nicotinamide adenine dinucleotide

Ingredients

Nicotinamide
Adenine Dinucleotide

.....

Normal Saline

NAD+ is a vital coenzyme that supports energy production, cellular metabolism, and DNA repair. As levels decline with age, supplementation may help boost energy, support healthy aging, and enhance the body's natural repair processes.

Benefits

- Boosted metabolism
- Enhanced brain function
- Reduces fatigue
- Reduce inflammation
- Slowing cognitive decline
- Neuroprotective benefit
