

# Vitamin C

## High Dose Sodium Ascorbate

### Ingredients

Sodium Ascorbate

---

Normal Saline

High-dose intravenous vitamin C is an IV wellness therapy that delivers vitamin C directly into the bloodstream. At Revamped Wellness, IV vitamin C is offered as part of an individualized wellness plan and is administered under appropriate clinical oversight following an assessment of each patient's needs, medical history, and suitability for treatment.

- Designed to support overall wellness and nutritional needs
- Individualized dosing based on clinical assessment
- Administered by trained healthcare professionals
